

**Friday, September 26, 2025**

**Young Suprachem Minisymposium**

Chairman: **Bartosz Szyszko**

---

<b>S01 W19</b>	<u>Stefano Crespi</u>
9.30-10.00	<i>Mechanistic Investigation of the Isomerization of New (and Old) Photoswitches</i>

---

<b>S01 W20</b>	<u>Jenniffer Hiscock</u>
10.00-10.30	<i>The development of Supramolecular Self-associating Amphiphiles (SSAs) towards the treatment of both infectious disease and cancer... plus a surprise, can you stop a bullet with protein?</i>

---

<b>S01 W21</b>	<u>Stefan Borsley</u>
10.30-11.00	<i>Catalysis-driven active transport</i>

---

Chairman: **Bartosz Szyszko**

---

<b>S01 W22</b>	<u>Anna McConnell</u>
11.40-12.10	<i>Light-Responsive and Spin-Crossover Metallosupramolecular Cages</i>

---

<b>S01 W23</b>	<u>Bernd Schmidt</u>
12.10-12.40	<i>Fluorinated Porous Organic Cages and Macrocycles as Organic Materials</i>

---
