

**Chemistry Europe** represents 16 European chemical societies from 15 European countries who co-own 21 scholarly journals.

**We support** their members at every stage of their careers as they strive to solve the challenges that impact humankind.

Information on the societies that make Chemistry Europe

Direct access to all portfolio journals

The screenshot displays the Chemistry Europe website with the following sections:

- About Chemistry Europe:** Founded in 1995, Chemistry Europe is an association of 16 chemical societies from 15 European countries. It publishes a family of high-quality scholarly chemistry journals, covering a very broad range of disciplines. Its mission is to evaluate, publish, disseminate, and amplify the scientific excellence of chemistry researchers from around the globe in high-quality publications. It supports its members at every stage of their careers as they strive to solve the challenges that impact humankind. In all its work, Chemistry Europe values integrity, openness, diversity, cooperation, and freedom of thought.
- Fellows Program:** Chemistry Europe recognizes outstanding contributions through its Fellows Program.
- New Journal:** ChemistryEurope brings together the brightest minds in chemistry. We publish authoritative research on all aspects of chemistry and from adjacent scientific areas that showcases chemistry's role as a central science. We serve the entire community by providing an open access platform for original and inspirational work from across the discipline. Chief Editors: Luisa De Cola, Lars C. Grabow, Ken Tanaka.
- Journals:** Displays covers for Chemistry A European Journal, EurJIC, and EurJOC.
- Member Societies:** Chemistry Europe comprises 16 chemical societies from 15 countries.
- Open Access:** Take Advantage.
